Mehmet Firat Aksoy

Full-Stack Software Engineer

Istanbul, Türkiye | mehmetfirataksoy@gmail.com | linkedin.com/in/mfirataksoy | github.com/mfirataksoy | mfirataksoy.com

SUMMARY

AWS Certified full-stack software engineer with 3+ years of experience shipping mobile, web and backend products from design to production, with AI tools such as Claude Code built into every stage of development. Most recently owned regulated e-document products end to end at İzibiz across Flutter, Vue and Java Spring. Previously in Credit One Bank's IMLP program on cloud and development teams. Chancellor's Scholar (full-ride) and Honors Computer Science graduate of TCU; bilingual English and Turkish.

TECHNICAL SKILLS

Languages: Java, Dart, TypeScript, JavaScript, Python, SQL
Frameworks: Spring, Flutter, Vue.js, React, Node.js, Express, JSP, Tailwind
Databases & BaaS: PostgreSQL, MS SQL, MongoDB, Firebase
Cloud & DevOps: AWS (EKS), Kubernetes, Terraform, Docker, Portainer, Nginx, Graylog, Zabbix, CI/CD
AI & Tools: Claude Code (AI-assisted development), TensorFlow, OpenCV, CUDA, NVIDIA Jetson, Git, Jira

PROFESSIONAL EXPERIENCE

Software Engineer | İzibiz Bilişim Teknolojileri A.Ş. | Istanbul — May 2025 – Oct 2026

- Led end-to-end delivery of regulated e-document products (e-Ledger, e-SMM, e-Creditnote, expense vouchers), a tax calculation engine, an SMS microservice and partner integrations such as IdeaSoft.
- Shipped across Flutter mobile, Vue and JSP web, and Java Spring and PostgreSQL backends; containerized the stack with Docker and Nginx and used Graylog and Zabbix to monitor logs and infrastructure in production.
- Built Claude Code into every stage of development, from design and coding to code review, testing, documentation and releases, to deliver more with a lean team.

IT Leadership Associate | Credit One Bank | Las Vegas, NV — Aug 2023 – Aug 2024

- Selected for the Information Management Leadership Program (IMLP), a two-year IT rotation; partnered with senior IT leadership on planning and delivery.
- Cloud: onboarded new applications onto the bank's hybrid cloud platform, provisioning infrastructure with Terraform and deploying to AWS EKS clusters on Kubernetes.
- Monitored cluster and application health across EKS environments for production banking services.
- Development: built features for the bank's internal React support-agent platform, used daily by customer support staff, with hooks, global state management, React Router and REST APIs.
- Built a customer-handling timer whose state persisted across route changes as agents moved between screens.

Customer Success Manager (Contract) | US local-delivery platform (confidential) | Remote — Sep 2022 – Apr 2023

- Managed a US client's delivery app for local shops through development, translating client needs into technical requirements.
- Bridged a Turkey-based dev team and the US client team across time zones, aligning scope and timelines.

Software Engineer Intern | H-E-B Innovation & Technology | San Antonio, TX — May 2022 – Aug 2022

- Led a smart-home grocery device from pitch to working prototype; oversaw a computer-vision specialist.
- Trained CNN product and barcode recognition models with TensorFlow and Keras, deployed on an NVIDIA Jetson Nano with CUDA and OpenCV for real-time edge inference.
- Built the companion app flow: Wi-Fi provisioning, Firebase Authentication and H-E-B account linking, with scanned and depleted items synced to the customer's account automatically.
- Designed 3D-printed enclosures for in-home testing and pitched integration into H-E-B's iOS and Android apps.

Software Engineer Intern | Anlaş Otomasyon — Sep 2019 – Jan 2020

- Rebuilt the licensing server (React, Node, Express, TypeScript) that authenticated purchases for all customers, from Fortune 1000 firms to small businesses.
- Replaced cryptic UI errors with actionable handling and reporting, reducing total errors by 15%.

Alumni Relations & Front Desk Specialist | D.J. Kelly Alumni Center, Texas Christian University — 2019 – 2023

- Staffed the front desk for four years while studying full time, welcoming guests and setting up 300+ attendee events; recognized by management in 2023 for handling an emergency.

EDUCATION & CERTIFICATIONS

B.S. Computer Science, Minor in Mathematics | Texas Christian University | Fort Worth, TX — 2018 – 2023
Chancellor's Scholar (full-ride merit scholarship) · Honors graduate · Dean's List

Certifications: AWS Certified Cloud Practitioner; MS SQL From A to Z; Professional IT Support Certificate
